DISSTON

HAND SAWS

D-42 Lightweight Pattern, Straight-Back

Victory—the finest saw Disston makes. Cover-top, carved handle, weather-proof finish. Disston Steel blade, true taper ground. Made in 26-inch 7, 8, 10 and 11 points cross-cut, 5½ points rip.

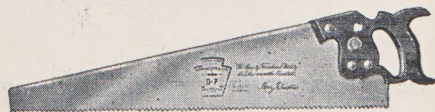

D-23 Lightweight Pattern, Straight-Back

A saw of fine quality and skilled workmanship. Made in 24-inch 8 and 10 points cross-cut, 26-inch 7, 8, 10 and 11 points cross-cut, 5½ points rip.

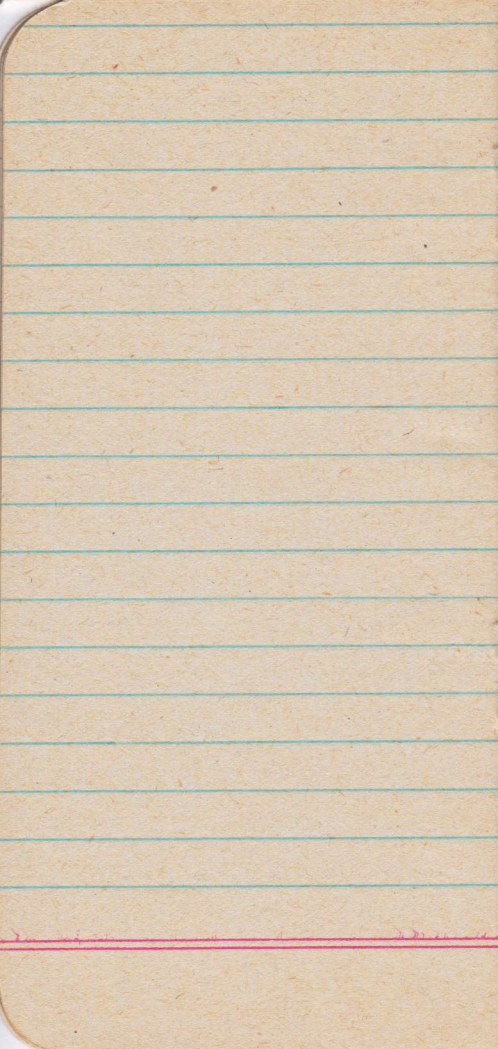

D-8 Medium Weight Pattern, Skew-Back

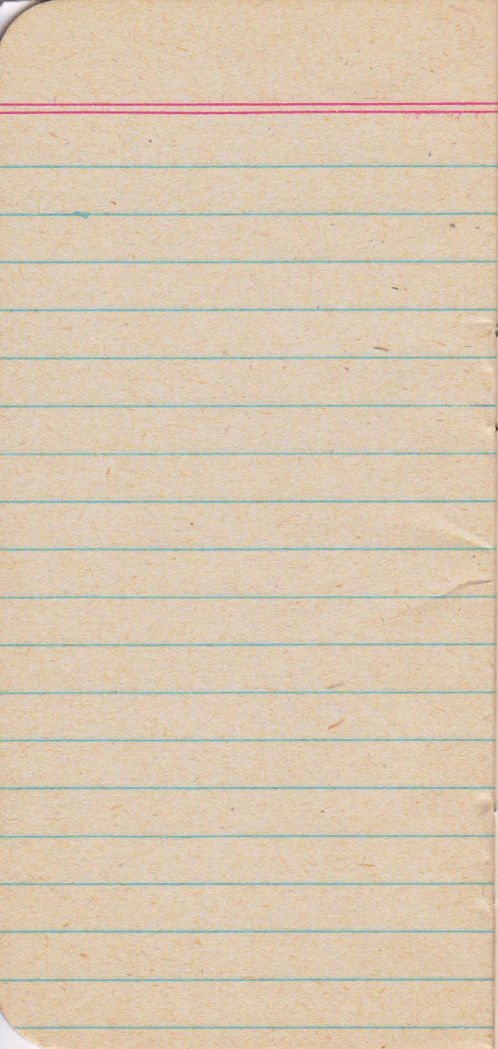

"The Saw Most Carpenters Use." Made in 20-inch 10 points cross-cut; 22-inch 8 and 10 points cross-cut; 24-inch 8 and 10 points cross-cut; 26-inch 7, 8, 10 and 11 points cross-cut; 5½ points rip.

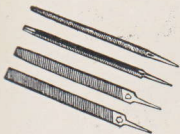

D-7 Lightweight Pattern, Straight-Back

A popular, moderately priced saw of Disston quality. Made in 26-inch 7, 8, 10 and 11 points cross-cut; 5½ points rip.

DISSTON

DISSTON FILES

have clean, strong, sharp teeth, cut at correct angles with uniform width and depth. High quality steel, improved heat treatment and careful workmanship assure fast cutting and long life.

DISSTON HACK SAW BLADES

Try Disston Di-Mol, Chromol, Duraflex or Double-Flex Hack Saw Blades. These blades will give long and efficient service.

DISSTON BACK SAWS

have an extra heavy steel back to give greater stiffness and help hold saw in the cut. Blade of Disston Steel with bevel filed teeth for cutting across or diagonally to the grain.

DISSTON COMPASS SAWS

are made in various patterns—a style best suited for those difficult jobs. Blades are of Disston Steel with hard-wood handles.

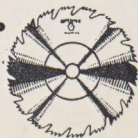

DISSTON PRUNING SAWS

Shown is one of many types made by Disston and each is carefully designed to make faster, easier pruning possible. Disston Steel blades make them long-lasting.

DISSTON HOME WORKSHOP CIRCULAR SAWS

are made of Disston Steel with the same care and skill as the Disston saws used in lumber mills. High finish, keen teeth and are accurately fitted.

DISSTON **TROWELS**

PLASTERER'S TROWELS

No. 328 Flexolite Finishing Trowel
— a very light weight trowel, perfectly balanced, with a strong, flexible blade.

No. 338 Flexolite Finishing Trowel
— same as No. 328 except for "California" pattern handle.

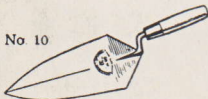

CEMENTER'S TROWEL

No 68. Long, strong mounting, flexible blade, correct lift; ample knuckle room Disston Steel blade.

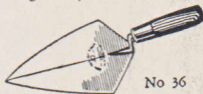

BRICK TROWELS

No 10

No 10 Philadelphia" pattern. This design of trowel is more universally used than any other Blade, post and tang forged from one piece of Disston Steel Spiral tang securely locks handle on trowel.

No. 36 Same quality as No 10 but is of the wide-heel-blade pattern. A favorite for heavy mortar joints.

No 36

POINTING TROWEL

No 15 Shape is similar to "Philadelphia" brick trowel. Spiral tang securely locks the handle. Perfectly balanced.
